# K. Ram Sowgandh

Hyderabad, Telangana, India

7981655265 ramsowgandh28@gmail.com linkedin.com/in/ram-sowgandh github.com/ramsowgandh28-bot

## Objective

Motivated 2nd-year B.Tech Computer Science and Engineering (Data Science) student with hands-on experience as a Python Developer Intern and Campus Ambassador. Skilled in Python, Java basics, C, DBMS, HTML, CSS, Bootstrap, and basic Git/GitHub. Seeking a Junior Software Development Internship to apply programming fundamentals, strengthen software development skills, and contribute to real-world projects while continuously learning.

## Education

**Sphoorthy Engineering College** **2025 – 2029**
*B.Tech in Computer Science and Engineering (Data Science)* *Nadergul, Hyderabad, Telangana*

**NxtWave CCBP 4.0 Academy** **2025 – 2029**
*Industry-Ready Certification (IRC)* *Online*

## Relevant Coursework

- Data Structures
- Algorithms Analysis
- Artificial Intelligence
- Systems Programming
- Software Methodology
- Database Management
- Internet Technology
- Computer Architecture

## Experience

**CodeOrbit Tech** **September 2026 – October 2026**
*Python Developer Intern* *Hyderabad, Telangana*

- Worked on basic Python programs to strengthen programming fundamentals and develop practical problem-solving skills.
- Applied Python concepts such as variables, conditional statements, loops, functions, and basic data structures to solve programming tasks.
- Practiced writing, testing, and debugging Python programs to identify and fix programming errors.
- Gained hands-on experience with Python development workflows and improved logical and analytical problem-solving skills.

**Skill Vedanth** **August 2026 – Present**
*Campus Ambassador* *Hyderabad, Telangana*

- Represent Skill Vedanth on campus and help promote its learning opportunities among students.
- Engage with students and share information about relevant programs, initiatives, and opportunities.
- Develop communication, networking, and collaboration skills through campus-level activities.

## Projects

**BhuDrishti – SatQuery AI** | *Python, React, PyTorch, Hugging Face, GDAL/Rasterio* **September 2026**

- Developed a multimodal remote-sensing AI assistant that enables users to analyze satellite imagery through text, voice, and image-based queries.
- Implemented specialized AI workflows for image captioning, visual question answering, grounding, change analysis, and optical-SAR analysis.
- Built the application using Python, React, PyTorch, Hugging Face Transformers, FastAPI, and geospatial processing tools.

**FIND-IT CAMPUS** | *AI, Web Development, Python, Database* **September 2026**

- Developed an AI-powered college Lost and Found platform to help students report, discover, match, verify, and return lost items.
- Designed features for item matching, owner verification, handover tracking, and recognition of students who return lost items.
- Collaborated with a team to develop and present the project, securing 3rd Prize in a college hackathon.

**CodeAxiom** | *React, JavaScript, Python, DSA* **September 2026**

- Designed an interactive code-execution visualization platform that helps learners understand how programs execute step by step.
- Planned visualizations for data structures and algorithms to make programming concepts easier to understand through execution-based learning.
- Developed the project concept with a focus on interactive learning, programming practice, and real-time code visualization.

**DreamweaverAI** | *AI, Web Development* **September 2026**

- Developed an AI-based project concept focused on transforming user ideas into an interactive and personalized digital experience.
- Explored AI-powered features and user-focused workflows to create a practical application with a simple and engaging interface.

## Technical Skills

**Languages**: Python, Java (Basics), C, HTML, CSS, Bootstrap
**Developer Tools**: VS Code (Basic), Git (Basic), GitHub (Basic)
**Technologies/Frameworks**: DBMS, Hugging Face

## Leadership / Extracurricular

**BhuDrishti – SatQuery AI** **September 2026 – Present**
*SIH 2026 Team Leader* *Sphoorthy Engineering College*

- Worked as a team member on BhuDrishti – SatQuery AI, a multimodal remote-sensing AI assistant developed for Smart India Hackathon 2026 Problem Statement SIH26167.
- Collaborated with teammates to develop, refine, and present an AI-based solution for analyzing satellite imagery through text, voice, and image-based queries.

**FIND-IT CAMPUS** **September 2026**
*Hackathon Team Leader* *Sphoorthy Engineering College*

- Collaborated with a team to develop an AI-powered college Lost and Found platform for reporting, matching, verifying, and returning lost items.
- Secured 3rd Prize and a cash award of Rs. 200 for the project.

**MSME Ideathon 6.0** **2026**
*Participant – Team Idea Matrix* *Sphoorthy Engineering College*

- Participated in MSME Ideathon 6.0 and contributed to Team Idea Matrix while developing and pitching VaultAI, an AI-powered financial management system.
- Represented Sphoorthy Engineering College and gained experience in idea validation, teamwork, innovation, and pitching.

**NxtWave CCBP 4.0 Academy** **2026 – Present**
*CCBP Fellow* *Online*

- Participated in hands-on learning activities, coding challenges, and MVP-building initiatives focused on developing industry-ready technical skills.
